UKSGL Backpack

The UKSGL backpack is made of **ATEX Approved Material** and is for use with the MK7, MK 2 and MK 2/2 kits.

The special design of the backpack enables the operator to carry the sampling kit with ease when walking on the jetty and up gangways.

The backpack benefits from safety back padding and straps to hold the equipment in place. The material is durable, water-resistant and easy to clean.

All UK Sampling Gauges Ltd equipment is designed and manufactured with the safety and convenience of the operatives in mind.

Please contact us if you require further information about the UKSGL backpack or any other equipment offered by **UK Sampling Gauges Ltd**.
